EXPERIENCE

Web Developer INTERNEE

EIBO Services PVT. LTD.

October 2025 – November 2025 Gwalior, MP, India

- Built the **frontend** of an online shopping website using **React.js** and **Tailwind CSS**, making it easy to use and look good on all devices.
- Worked with the **backend team** to connect the website with **APIs**, making sure everything worked smoothly between the frontend and backend.
- Used **MySQL** to understand and manage data like products, users, and orders in the project.
- Improved my **problem-solving** and **teamwork skills** by helping add new features, fixing bugs, and sharing ideas to make the project better.

LLM Prompt Engineer INTERNEE

Ethara AI.

January 2026 – February 2026 Gwalior, MP, India

- Designed and optimized advanced prompts for Large Language Models (LLMs) to improve response accuracy, relevance, and contextual understanding.
- Built structured prompt frameworks for tasks like text generation, summarization, and translation.
- Improved AI output quality by refining system prompts, temperature control, and token management strategies.
- Conducted prompt testing, evaluation, and iterative improvements based on performance metrics.

PROJECTS

Chatbot AI

Minor Project

Created an **intelligent chatbot interface** using **TypeScript** that allows users to interact through **natural language conversations**. Focused on creating a **smooth and intuitive chat experience** with a responsive and minimal UI built using **Tailwind CSS**. Worked on handling message flow, user inputs, and chatbot responses efficiently. Designed the chat layout to adapt seamlessly across devices, providing a real-time, conversational experience.

Gym Management System

Major Project

Developed a **modern and responsive gym website** that highlights gym services, membership plans, and trainer profiles. Focused on building an **engaging user experience** with smooth navigation and clear layouts. Designed and implemented **interactive UI components** using **React.js** and **Tailwind CSS**, ensuring the site looks great on all devices. Integrated call-to-action sections and clean visuals to attract potential members.

Portfolio

Self-Need

Built a **personal portfolio website** using **HTML**, **CSS**, and

JavaScript to display my projects, skills, and achievements professionally.

Focused on creating a **clean design**, smooth scrolling, and **interactive animations** for a better user experience and structured the website to highlight each project clearly, making it easy for visitors to explore my work and background. This project helped me strengthen my **frontend development and design skills**.
